### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/4/2009 has been entered.

### ***Status of Claims***

Claims 1-23 are pending in the instant application. Claims 1-16 and 23 are withdrawn. Claims 17-22 are under examination.

### ***Information Disclosure Statement***

The examiner has considered the information disclosure statement filed 12/31/2009.

### ***Previous Objections/Rejections***

*Any rejections or objections stated of record in the office action mailed on 8/18/2009 that are not explicitly addressed herein below, are hereby withdrawn in light of applicant's arguments and/or amendments filed 7/26/2010.*

***Status of Specification***

**The objection of the specification is maintained.**

Applicant's response to the objection of the specification has been noted. The objection is maintained for the reasons of record.

***Status of Rejections***

***35 USC § 102***

**The 102 rejection of claims 17-22 is maintained.**

Applicant's arguments and amendments, see Remarks, filed 7/26/2010, with respect to the Final Office Action mailed 8/18/2009, have been considered but are not found persuasive. Applicant makes reference to the following statements:

**Bamdad '293. Applicant traverses this rejection. Reconsideration and withdrawal thereof are respectfully requested. Applicant submits that the instant application is a continuation-in-part of the Bamdad '293 patent application. Accordingly, this rejection is overcome.**

The prior art document by Bamded anticipates the instant claims. In addition, the instantly claimed subject matter does not find support in the previously filed applications (e.g., 09/996069, 10/236863, and 10/237,150). Thus, the instant application receives the effective priority date of 9/14/2004, drawn to provisional application 60/610,038. The Bamded document serves as prior art under 102(b) (i.e., "statutory bar"). Thus, the instant claims are appropriately rejected.

***New Rejections***

***Claim Rejections - 35 USC § 112 (2<sup>nd</sup> Paragraph)***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1624

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 cites that substituents "M<sub>1</sub>- M<sub>4</sub>" may be "aryl analogs". What are the structures of these claimed "aryl analogs"? The specification offers no direction or guidance as to the chemical entities of these moieties. Thus, claim 17 and its dependent claims which do not rectify the issue are indefinite.

### ***Conclusion***

No claims are allowed.

This is a continuation of applicant's earlier Application No. 10/564981. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1624

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
